2025 IR Coding Book Update

SIR's 2025 coding update for interventional radiology and endovascular procedures is now available in the IR Business Center. The 2025 coding update includes answers to frequently asked questions and downloadable PDF charge sheets. The guide is updated annually by SIR and ACR coding experts to ensure you always have the latest information to help you maximize your practice's profitability. **The e-publication is free to you as a member—a \$199 value!** [Download your free copy.](#)

Navigator® guides for IR and E/M

These comprehensive guides help you navigate the complexities of interventional procedure coding and evaluation and management (E/M) services. Both coding guides are updated annually jointly with Revenue Cycle Coding Strategies (RCCS) and SIR. The 2025 Navigators® are now available in the IR Business Center. [Purchase your copy today!](#)

Check out the new coverage letter on GAE

SIR's Carrier Advocacy Workgroup has developed a new evidence-based coverage letter: Genicular artery embolization (GAE) for the treatment of knee pain including but not limited to degenerative joint disease; osteoarthritis of the knee; treatment prior to or following knee replacement; or as a treatment for patients who are not candidates for knee replacement surgery. This letter is free to SIR members and was created to help our members overturn carrier policy, denied authorizations, and rejected claims. [Visit the IR Business Center](#) to download your copy today.
