

# Coding and Reimbursement Digest

January 2024

## Health Policy and Economics

[Recording for the Town Hall- IR and DR Better Together or...?](#)

### Register for the 2024 IR annual coding webinar

[Register now](#) for the 2024 Annual Coding Webinar on Feb. 6, from 7–8 p.m. ET. The session focuses on new, revised, and deleted codes for 2024, the AMA CPT® manual's instructional changes for split or shared visits and unlisted codes, increasing the use of CAT III IR codes, and an overview of the IR code set. Upon completion of the webinar, attendees will get 1 CME credit or a participation certificate that can be converted into 1 RCCB RCC or RCCIR CEU credit.

### Have you received the AMA Physician Practice Information Survey?

The American Medical Association (AMA) [Physician Practice Information \(PPI\) Survey](#) is underway, and we urgently need all selected physicians to actively engage in this effort. If you were among the randomly selected recipients to take the survey, a reminder is heading your way to complete the survey as soon as possible. **The subject line of the email will be “Reminder: The AMA needs your input to support fair and accurate physician payment” and the email will come from [PPISurvey@mathematica-mpr.com](mailto:PPISurvey@mathematica-mpr.com).**

SIR strongly encourages all recipients to participate to ensure IR data is well-represented. For more information, contact [economics@sirweb.org](mailto:economics@sirweb.org).

SIR's [2024 coding update](#) for interventional radiology and endovascular procedures is now available in the IR Business Center. The 2024 Coding Update includes answers to frequently asked questions and downloadable PDF charge sheets.

The guide is updated annually by SIR and ACR coding experts to ensure that you always have the latest information to help you maximize your practice's profitability. **The e-publication is free to you as a member—a \$199 value!**
