Program Coordinators
Donna D’Souza, MD, FSIR
Luke Wilkins, MD, FSIR

Established in 2006, SIR’s Fellows Spring Practicum has provided education for over a thousand graduating IR fellows. With the launch of the IR Residency and the official sunset of the VIR fellowships, the Practicum has been renamed the IR Residency Practicum.

The mission of the Practicum remains the same: to provide attendees with the most current and beneficial information as they begin their first years of practice in IR. It is designed to prepare graduating residents for practice in both academic and private practice settings.

Your registration includes:
• Access to the multi-track live meeting on June 4
• Opportunity to visit corporate exhibits and symposia
• A recording of the June 4 meeting
• Access to prior Practicum recordings
