Coding and reimbursement

2022 coding resources are now available in the IR store
- Coding book update (with IR charge sheets)
- 2022 coding update on-demand

New for 2022
- [IR frequently asked questions](#) answered by our coding application and guidance workgroup on E&M, central venous access, arterial access, dialysis circuit, vascular interventions, vascular embolization, endovascular aneurysm repair, nonvascular interventions, and more.
- [2022 IR common missed coding revenue](#) on diagnostic angiography/venography in conjunction with transcatheater therapies, diagnostic lower extremity run-off studies, additional selective arterial studies, follow-up angiography after embolization, and ultrasound guidance for vascular access.

Carrier advocacy coverage letters
SIR has become aware of carriers denying coverage for IR procedures and developed evidence-based coverage letters to help our members overturn these denials. For more information, please email our SIR economics team economics@sirweb.org.
- New release: Venous angioplasty and stent placement for acute iliofemoral thrombosis and chronic iliocaval occlusion and stenosis
- Upcoming: Cryoablation of bone tumors

RUC
The American Medical Association (AMA) will host a meeting for the RVS Update Committee (RUC) from Apr 27-30, 2022. The SIR RUC advisors and staff will attend the meeting in person.

CPT®
The AMA CPT® Editorial Panel meeting took place Feb 3–5, 2022. The SIR CPT® advisors and staff attended virtually. Preparations for the next AMA CPT® Editorial Panel meeting May 11-14 are under way.

Coding application and guidance
The SIR coding team has already answered several coding questions from our members this year. If you have a coding question, [click here](#) and ask the coding team now.
