Founded: 1999 (as part of Callagy Law)

Headquarters: Multi-state Footprint, National Reach

Founder: Sean Callagy, Esq. - 2x Top 100 National Jury Verdicts

Mission: Recover what's rightfully yours - with integrity, without balance billing, and without the red tape.

Our Origin

Callagy Recovery was born from Callagy Law, a firm founded by Sean Callagy to fight for fair medical reimbursements. Since becoming an independent entity, Callagy Recovery has scaled from 5 to over 100 employees, processing thousands of files each month for hundreds of medical provider clients nationwide. With custom-built, AI-enhanced workflow technology and API connectivity to client systems, we make it seamless to engage with the No Surprise Act (NSA) arbitration process.

Why We Exist

The No Surprises Act (NSA) protects patients from surprise medical bills but created a complex, time-sensitive arbitration system for providers. Despite its potential, 90% of eligible claims still go unfilled - leaving billions on the table. Callagy Recovery exists to eliminate every barrier standing between providers and the revenue they've earned.

**100% of surveyed clients
rated Callagy Recovery 5/5
on revenue impact!**

The Opportunity

- Ideal clients:** All out of network surgeons, intraoperative monitoring, anesthesia, and other ancillary providers
- Average claim recovery:** \$15,000
- Average monthly claims:** 6 per provider per practice
- Average single provider practice impact:** \$67,000 - \$90,000/month in added revenue

Why Providers Don't File (And Why You Should)

- Tight timeframes: 30-day, 10-day, and 4-day windows
- High cost: \$1,000+ up front per case, refunded slowly
- Complexity: Requires substantive and compliant submissions, zero margin for error

Callagy Recovery solves all of this. No risk. No admin. Just results.

What Makes Us Different

- Over \$1.2 Billion recovered for medical provider clients
- Approaching \$100 million per month as of December 2025
- Averaging \$2 Million in recovery per day
- Full service NSA & state arbitration: Filings, briefs, compliance, forum strategy
- \$0 up front: We front all arbitration filing fees (typically \$1,000+)
- 90%+ win rate: Legal-caliber submissions, compliance maintained by in-house attorneys
- Deep forum intelligence: 13 federal venues, weekly arbitrator contact
- Seamless API integration with client systems to minimize provider effort
- Affiliation with Callagy Law provides enforcement and legal support unmatched by competitors

Your Unrecovered Revenue is Our Mission. If you're out-of-network, performing emergency services, and not arbitrating - you're likely leaving six to seven figures on the table.
